PROFESSIONAL SUMMARY

Product Manager with 3+ years of experience building and scaling mobile super apps (200K and 600K daily users) across North America, LATAM and Asia, distributed through B2B2C OEM partnerships with Motorola and Verizon. I operated like a mini-GM owning revenue, partner relationships and roadmap. 4x revenue growth on one product, a 70% uplift on another. Led cross-functional squads (typically 3 engineers and a designer) across US and India teams, with experience in 0-to-1 development, programmatic monetization and fast delivery cycles. Hands-on with LLM prototyping and agentic workflows, driving AI adoption at work and b-school.
