

Letter of Recommendation for Rishi Kashyap

To whom it may concern:

12.09.2026

I am pleased to write a letter of recommendation for Rishi Kashyap. They participated in the Mayerfeld Project Management Training Program over the course of the four-week programme, and I am in a solid position to recommend them.

As their tutor, I had the opportunity to observe Rishi Kashyap's participation and interaction in class and to evaluate their understanding of the subject matter. They were an exceptional participant throughout the programme. Through consistent initiative, follow-through, and teamwork, they demonstrated a high standard of professionalism and the ability to approach tasks thoughtfully and effectively.

Rishi demonstrated notable initiative, including independently contributing to the development of a mini application.

They communicated actively and showed patience and consistent support toward their team.

Rishi Kashyap is exceptionally well equipped to grow from the challenges they encounter. Their proactive approach, strong learning agility, and receptiveness to feedback stood out clearly during the course. They invested careful effort in delivering high-quality work and made a valuable contribution to the shared learning experience.

It was an honour to observe their development during the course. I have full confidence that Rishi Kashyap will be a valuable asset to an organisation and will bring commitment, sound judgement, and strong project-management potential to a future team.

I strongly endorse Rishi Kashyap as a member of your team.

Sincerely,

Ben Berwing
Project Management Tutor
