Bengaluru, India

Aug. 2017 – May. 2021

PROFESSIONAL EXPERIENCE

InMobi - Glance (TECHNOLOGY, \$280M REVENUE, GLOBAL PRESENCE)

Bengaluru, India

Global mobile advertising and AI-powered smart TV & lock screen platforms, 12 countries

Product Manager

Jan. 2025 - Jul. 2025

- Drove 70% uplift in revenue for a content discovery app by optimizing programmatic and direct monetization metrics.
- Improved daily user retention of a content discovery app by 12% with onboarding and engagement flow improvements.
- Championed AI adoption across product and business teams by sharing prompting frameworks and model evaluation best practices, enabling teams to independently build LLM-based prototypes for customer-facing use cases.
- Owned OEM partner relationships across 3 telco partners, delivering weekly reports, coordinating technical troubleshooting and stakeholder reporting.

Associate Product Manager

Jan. 2024 - Dec. 2024

- Spearheaded end-to-end product operations and go-to-market strategy of a 600K DAU a content super app (news and gaming), collaborating with teams to deliver business outcomes and achieve 4x revenue increase.
- Developed and launched 3+ AI-driven MVPs (calorie tracker, mindfulness tools, quiz content), reducing engineering development time by ~20%.
- Launched a lock screen election content feature showcasing real-time results and news, in partnership with the Associated Press for the 2024 U.S. Elections, increasing user engagement by 20%.
- Led legal compliance workflows across products and markets, ensuring regulatory alignment and zero compliance incidents across Americas and India.

Senior Business Analyst

Jan. 2022 - Dec. 2023

- Orchestrated data analytics on feature releases, delivering actionable insights on product KPIs influencing product roadmaps and business strategies; automated Power BI dashboards and email reporting using Python.
- Built an in-app campaign monetization pipeline primarily with mobile games, establishing new revenue stream.
- Served as primary business liaison coordinating product integration activities for telco-owned products, managing daily operations, technical coordination, and product releases with external OEM partners.

Business Analyst

Jun. 2021 - Dec. 2021

- Managed gaming operations end to end for a HTML5 casual games app, collaborating with game studios to onboard and integrate 70+ games in mobile app.
- Facilitated onboarding of content partners for a news aggregator app by conducting market research, evaluating, and supporting deal closures- successfully signing 2 partners representing 30+ U.S. publishers.
